"And certainly did We create man from an extract of clay. Then We placed him as a sperm-drop in a firm lodging. Then We made the sperm-drop into a clinging clot, and We made the clot into a lump [of flesh], and We made [from] the lump, bones, and We covered the bones with flesh; then We developed him into another creation. So blessed is Allah, the best of creators."

Surah Al-Muminun · 23:12-14 — References the divine creation of the respiratory apparatus and flesh (lungs), reminding patients that Allah who created the breathing system has knowledge of its restoration and healing.
